Cheers in an Atlanta Church.

Atlanta, Ga., April 24—The First Baptist church, the most fashionable place of worship in Atlanta, was tonight the scene of a remarkable patriotic demonstration. The pastor, Dr. W. W. Landrum, preached a ringing war sermon to his congregation, urging the young men to enlist and "avenge the destruction of the Maine, and see to it that the country was not made the tool of Wall street." The congregation was gradually wrought up, and the pastor asked that all present join him in the hymn, "My Country, 'tis of Thee."

Three thousand people sang, and at the conclusion of the song dozens of tiny United States flags were flung into the air and enthusiasm ran rampant for fully ten minutes. The pastor did not attempt to check it, but repeated his injunction to the young men to go to the front and prove that there were yet men in the south who were determined to sustain national honor.

SAMPSON'S FLEET AT WORK

Captures a Thousand Soldiers and a Half Million in Gold.

THE WAR REVENUE MEASURES.

Secretary Long Denies That Morro Castle Has Fired on Our Fleet and the Fire Returned.

By Wire to THE TELEGRAM.

Washington, April 26—Chairman Dingley, of the ways and means committee, has submitted to the house the war revenue bill. It recites the necessity of immediately providing revenue to carry on the war with Spain. That if peace had continued no doubt the revenue would have been sufficient. The bill submitted today contains three changes from the bill as originally drafted, as follows:

Discount of five per cent. on beer stamps allowed after the passage of the act. Telephone messages subject to a tax of one cent on messages transmitted thirty miles or more graduated up to ten cents where the cost of communication exceeds five dollars.

Official telephone and telegraphic messages of the government are exempt. Differential half-cent on mineral waters and beverages, domestic or imported and not otherwise subject to internal taxation, in half-pint bottles is eliminated so that the dividing line is pint bottles containing less one cent and bottles containing more two cents.

The captain reports that they were attacked and fired upon by Spanish soldiers who called the passengers "dirty American pigs." The work of laying submarine mines in the vicinity of Fort Wadsworth was continued during the early hours this morning.

AFTER A RICH PRIZE.

Washington, April 26—The navy department, through news channels not available by the newspapers, has received information that several vessels of Sampson's fleet cited a large steamer supposed to be the Montserrat fifteen miles east of Matanzas. They signalled to pursue her and immediately put off after the prize. They have not been heard from since. The Montserrat carries a thousand soldiers and a half million dollars in gold.

SOLDIERS AND GOLD CAPTURED.

Key West, April 26—The steamer Montserat, having on board one thousand soldiers and five hundred thousand dollars in gold, it is reported has been captured by Sampson's fleet.

NEGROES FORMING COMPANIES.

They Will Tender Their Services to Governor Russell.

Though some of the negroes, like some of the white people, are afraid of whizzing bullets and flashing guns, still there are many among them with great physical courage and love for the flag and their country's honor.

At this very minute there are no less than seven colored military companies being formed in the state and some of them already have upward of 200 men enlisted.

Companies have been formed in Raleigh, Charlotte, Wilmington, Newbern, Winston, Reidsville and Concord. One is being formed in Franklington and it is stated that Raleigh, Newbern, Charlotte and Wilmington will, within the next few days, have two companies instead of one.

As soon as a regiment of 10 companies is secured they will offer their services to the Governor and volunteer for the next call for troops from North Carolina.

Prominent negroes claim that they can, within two weeks time, raise twenty companies.—News and Observer.

THE NEGATIVE WON.

An Interesting Debate Last Night at St. Matthews.

The debate last night before the Literary society of St. Matthews M. E. church (colored) was listened to by a large crowd among whom were a number of white people. The query: "Resolved, that all negroes should support the nominees of the republican party," was ably debated by W. B. Winsdor and R. W. Winchester for the affirmative and W. R. Page and D. J. Gilmer for the negative.

Every inch of ground was hotly contested, but in spite of mountain-like prejudices the negative won by a majority of the votes of those present. Viewing this question in the light of existing conditions, the result of this debate is a great victory for Page and Gilmer.

The speech of D. J. Gilmer was particularly effective and the Telegram will print the whole of it in tomorrow's edition, the reporter having failed to get it reduced to manuscript in time for today's paper. It will prove very interesting.

To Oppose Removal.

The matter of moving the federal court from Greensboro to Winston is to be considered tomorrow in Washington. Messrs A. M. Scales, J. D. Glenn, R. R. King and R. D. Douglas left on the noon train and Hon. Thomas Settle will leave tonight for Washington to oppose the removal and present the claims of Greensboro.

THE CATECHISM OF TREASON.

A certain section of the press which has been wont to go into paroxisms of patriotic rage at any manifestation of partisanship in the house or senate has now taken a tack which reveals its true animus. All the bonds of the United States up to this time are made payable "in coin." Speaking of the bill authorizing a war loan of $500,000,000 which carries the same provision the Philadelphia Record says:

Chairman Dingley and his republican associates of the ways and means committee if asked, would not hesitate to say that they mean "gold" when they write "coin" in this bill. Why then have they not the courage as well as the wise discretion to say "gold" to every investor who desires to subscribe for this loan? If the majority of the senate insist that the loan should be paid in something else than gold let them have the opportunity of demonstrating to the country to what lengths they are ready to carry their mischievous cheap money doctrines. Instead of ignominiously surrendering without a struggle, as Chairman Dingley does in this bill, push the sound money issue upon them by making a gold loan, and let them take the alternative of facing the issue or beating a retreat!

The democratic party in both branches of congress has stood nobly by the administration. Although it has had abundant opportunity to do so it has not attempted to make political capital out of the situation. And yet the Philadelphia Record which pretends to be democratic advises the republican administration to put the democratic members of the senate in a position where they will either be compelled to betray their political convictions or seem to betray their country. Nothing so narrow and contemptible has cropped out during the entire session of congress. This is no time for partisan rancor. It is at least pleasant to think that the administration is too sensible and too liberal, not to say honorable, to descend to such petty trickery. There will be an abundance of time to settle the money question when through the united efforts of all parties and all sections Spain shall have been driven from the western hemisphere. The man who raises the issue now is twin brother to a traitor.

The war with Spain has brought out one thing very clearly: The militia system is at best a half way measure. Before the militia can be ordered into active operations it is necessary to subject them to months of hard drilling. By the first of September the man who is a militiaman and the man who joined the company after hostilities began will be on practically the same footing so far as fitness for service is concerned. Long before the civilian has become sufficiently toughened to stand active campaigning he will have learned the drill evolutions required of him. So far as fitness for war is concerned the American militia is purely mythical.

Spanish gunners, like Spanish diplomats, seem to think that it is noise that does the business.

The Army and Navy Journal places black and white tape on the list of necessities for an army officer in Cuba. Evidently the Journal did not deem it necessary to say anything about red tape.

Those Frenchmen who have applied to Spain for permission to prey upon American commerce may find themselves in a pretty warm place before they are through with it

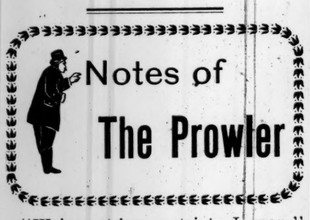
---

The United States having made certain representations to Portugal there will be no more dispatches stating that the Spanish fleet is still at the Cape Verde Islands.

The New York Journal ought to buy the Holland submarine torpedo boat and send Carl Decker to Havana after the news.

The American ships should remember that accidents will happen and not venture too near to the Spanish batteries.

The strongest ally of the United States is the Spanish bond.



"We've got 'em—patriots, I mean," said the Prowler, as he dropped in and looked over The Telegram's latest war bulletins. "We've got 'em, sure, and they want to lick the Spaniards out of their boots. They realize the fact that the war about to be waged is a just one. They know that no nation on earth has a right to starve and butcher its subjects in the brutal and inhuman manner in which Spain is doing the Cuban patriots. Their blood boils with just indignation and they are willing to spend and be spent in defending and giving to the struggling insurgents their liberty and human rights. They are willing to shoulder a musket or turn the crank of a Gatling gun; but they really see no way for their families to receive a support while they are doing the job.

"Yesterday afternoon a good citizen of this city was telling his friends that he could hardly stand the terrible butchery and was thinking of volunteering himself—that the only reason he did not do so was the fact that he was needed at home to support his wife and children. His friends gathered round him as he talked and began to sympathize with him and one big hearted fellow offered to see that the aforesaid citizen's family should not lack for the necessaries of life. Some of the crowd then expected to see their warlike friend prepare to shoulder a gun and start; but he took another tack and said he must go home and talk to his wife about it.

"Then they all laughed and thought they had a good joke on him. But he is all right, and his excuse is a good one. A man's first duty is to his home and family, and while the excuse may be laughed at, the fact remains that there are many brave fellows who would be, even now, volunteers, but for the fact that they realize the utter dependence of their families on their daily efforts.

"I insist on my proposition, sir, that they are brave men—it requires a brave man to get married. A man who is afraid to get married would not be a feather weight against Spanish bullets. And I do not mean to compare our fair and lovely women to Spaniards, either. I mean that when a man marries he begins the battle of life in earnest. He encounters problems which require as much true bravery to combat as it does to attack the forts at Morro Castle. If he succeeds in this battle of building a happy home and making glad the heart of his wife all the days of her life he has won as great a victory as the American army will have done when it sets Cuba free. If he fails in doing this it would have been as well for him had he been whirled into eternity by a Spanish cannon ball.

"This is my deliberation opinion."

Thus delivering himself the Prowler went home to see if the neighbors had sent in anything for dinner.

Will Drill Volunteers.

Lexington, Va., April 25—Gen. Scott, Superintendent of the Virginia Military Institute here, today offered the service of the battalion of cadets to Governor Tyler, to assist in organizing, drilling and discipling the volunteer troops to be assembled in Richmond. The battalion numbers 225.

SERMON ON WAR.

Bishop Rondthaler's Touching and Patriotic Words.

Bishop Rondthaler preached two strong war sermons at the Home church yesterday. Large congregations attended each service and they were deeply touched.

The Bishop read the war Litany of the church for the first time in his ministry of 32 years.

His text in the morning was chosen from the 27th Psalms, 3d verse: "Though a host should encamp against me, my heart shall not fear; though war should rise against me, even then will I be confident."

The bishop said that while he believed a majority of the American as well as the Spanish people tried to avoid war, the "hot heads" on both sides had won. However, we must all stand by our country, continued the Bishop, who added that there was no politics and no section in the coming battles. It is the duty of every man and woman to serve our country in every way possible.

It is our duty to pay war taxes freely; if we are called to the front it is our duty to go and not shirk from it; if we are called upon to nurse the sick or wounded, or preach to the soldiers it is our duty to accept that call. Everybody owes it to his or her country to do their share.

Those who go out in the field of battle are as safe in the hands of God as if they were at home, and the way to heaven is just as straight and safe, said the Bishop, who urged those who stay at home to trust in God. He spoke of the alarm in business, caused by the war, but said that God ruled in war just the same as he does in peace and he will make the present trouble with Spain turn out for good.

The Bishop said those who are not willing to fight for their country are not worthy of the name of Americans. He warned against the danger of over-confidence, using a number of apt illustrations, from political campaigns and otherwise. He called attention to the vast amount of over-confidence in both sides in the late civil war. Some said it would only last 90 days, but when it had lasted much longer the man who had fired the first gun committed suicide because of discouragement.—Winston Sentinel.

He tried to teach her how to bike,
But now he is in heaven;
Her weight was just two hundred pounds.
And his was ninety-seven.
—Chicago News.

"And what is your excuse this morning, Mr. Bimler?" "Splen'id 'scuse, Mrs. Gov'ment's goin' to increase tax on b-beer, an' I've been layin' in summer supply—that's all."—Cleveland Plain Dealer.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discouery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

Mr McBride Holt says:

Graham, N. C., July 16, 1897.
Oneida Cotton Mills:
About two and a half years ago my little boy about 4 years, and my little girl about two years, each had an enlargement of the glands about the ears. The trouble appearing on each about the same time, I was inclined to think it mumps, but soon observing to the contrary, I called in the doctor, who said the trouble came from colds, prescribing accordingly, yet swelling continued to grow until each had to hold for the lance, the little boy having been lanced in three places and at three times, his face at times looking alarming. The nature of the trouble was termed one thing by one and another thing by another. This, however, did not concern me, as I was looking for a cure, and Mrs. Joe Person's Remedy having been called to my attention so often and so favorably, I dropped the treatment from the doctor and commenced to use Mrs. Joe Person's Remedy. To say that the results obtained have been satisfactory is putting it in mild terms, the children, and especially the little boy being entirefy well, yet wearing the scars that will ever keep fresh in my memory the merits of Mrs. Joe Person's Remedy. Respt,
McBRIDE HOLT.

Senor Polo Prevaricated.

Washington, April 24—In an interview with Senor Polo, former Spanish Minister to the United States, at Niagara Falls, published this morning, he says that at Harrisburg and Rochester the car in which he was traveling to Canada was stoned, and that he and his party were otherwise insulted.

A government secret service officer, who acted as a member of the minister's escort from Washington to the Canadian border returned to Washington today. He says that no discourteous act was committed by any one the entire trip, and not an impolite word was spoken to Senor Polo by anybody. The minister was treated with complete respect, the officer says, and the journey was entirely without incident.

May Ignore the National Guard.

Newton, Kan., April 24—Governor Leedy is showing a disposition to ignore the national guard of this state and to snub the officers. He has said that under no conditions will he allow the state troops to enlist in bodies or to retain their present organization. He intends, he says, to appoint the officers of all the troops sent out by the state. The populist party in this state has cherished ill-feeling toward the militia ever since it refused to obey the commands of Gov. Lewelling during the trouble of 1893 in the state legislature.

SITUATION AT PORTO RICO.

The Island in a Critical State—Revolution Talked Of.

St. Thomas, West Indies, April 24—According to the latest anvices from Porto Rico, the agitation there is increasing and food prices are rising fast. The authorities have taken steps to prevent the departure of refugees.

At Mayagues, 70 miles southwest of San Juan, there is talk of a revolution. Refugees from Porto Rico who reached here by a schooneer this evening report that the condition of the is critical. Martial law has been proclaimed and Americans there are in danger, as they are without any protection.

United States Consul Horn here bought 1500 tons of coal for the United Statef government which will arrive here tomorrow and he is negotiating for more.

"Do you think that you could dodge bullets?" "I think so; I have been dodging bicycles for about five years."—Detroit Free Press.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at C. E. Holton's drug rtore.

General News in a Nutshell.

It seems that war has not yet noticeably increased the cost of the necessaries of life in St. Joseph, Mo. A wife beater squashed his account in the justice court on Monday last at the bargain counter rate of $1 and costs.

Men of genius are flooding the directors of the exposition to be held in Paris in 1900 with brilliant ideas. One inventor urges the dropping of a gigantic glass egg from the top of the top of the Eiffel tower into a pond below, several persons to have the privilege of occupying the egg, in order to experience falling from a high point into space. Another suggests the construction of a Colossus like that of Rhodes, whose interior shall show visitors the arrangement and position of all the organs of the human body, and shall have room enough besides to accommodate a medical congress.

The Appeal to Reason, a populist paper printed in Girard, Kan., refers to the American flag as "a painted rag on a stick," and says that it is "ridiculous, criminal and debasing to teach little children to bow down to it." In calling attention to this item the Kansas City Journal casually observes that there is a nice horse pond in Girard.

The amount of money at the credit of depositors in the state savings banks of France in 1896, when the latest statistics were taken, was $680,000,000, upon which 3½ per cent. interest is paid annually. One out of ever six inhabitants of the country have accounts at the banks, and half of the depositors are women. The great majority of thrifty Frenchmen belong to the working classes.

The citizens of Kansas, who usually claim everything in sight, say that Crozier, the inventor of the disappearing gun carriage, got his idea from a Kansas prairie dog jumged into its hole.

The officers of the British squadron which recently visited the Chusan Islands found there two dozen bottles of ale, bottled over 50 years ago in England. The beverage had been left at the island at the time of the first British war with China. The ale is not there now.

The Correspondencia, published at Madrid, expresses confidence in the "eventual triumph of justice." And that is what Uncle Sam pins his faith upon.

On the table of the house of commons are two boxes, one on the government and one on the opposite side. Mr. Gladstone, in all his great parliamentary speeches, spoke with one or the other of these boxes before him, and punctuated his remarks by striking his knuckles on the the lids with considerable force. The rings on his fingers made indentations in the wood, which are plainly visible and are often looked at with interest.

The naming of the new battery on Sullivan's Island, Charleston harbor, after Sergeant William Jasper is probably the only instance on record in this country of a fort being named in honor of a soldier other than a commissioned officer. Sergeant Jasper was shot and killed at Savannah, Ga., on October 9, 1779, while planting the flag of the Second South Carolina regiment on the British ramparts. He had previously distinguished himself during the attack on Fort Moultrie, June 28, 1776.

Sir Thomas Lipton seems to be the most talked about man in London since he floated his provision business into a heavily capitalized stock company. He is now starting cheap restaurants in many places in that city, where he intends to supply substantial dinners for eight cents each.

Sir Henry Oakley, the manager of the Great Northern railway, who has been elected chairman of one of London's electric railways, entered the service of the former road fifty years as a clerk at £1 per week.

MEETING AT BAPTIST CHURCH.

Two Interesting and Helpful Services Yesterday.

Yesterday afternoon Mr. Needham gave a most interesting and helpful Bible reading, taking for his subject "The Good Shepherd."

At the evening service the evangelist took for his subject "Jacob Blessed." He showed that it was only after Jacob had passed through many dark places he received the blessing from the Lord. He passed through a place of loneliness. His people had all gone from him and he was left alone with God. He passed through a place of defeat and God touched the hollow of his thigh and made him helpless—crushed, but blessed. He passed through a place of confessions. "What is thy name?" "My name is Jacob; I am a deceiver." He passed through a place of death and then received his reward: "Thou shalt be no longer called Jacob, but Israel."

The old man dies and Israel rises out of the ashes of Jacob, the deceiver. In this way often has God to lead his loved ones through these places of darkness before they are ready to receive a blessing.

It was a strong, powerful and searching sermon. All who are interested in Bible study should attend the Bible readings at the afternoon services.

Our Opening Day

Was a most emphatic success. It was not an opening simply in name, where a handful of old, decrepid or discarded styles were shown, but it was a glorious opening. Every article fresh as the morning dew, and it will go on tomorrow and all the balance of the week with a vigor, with an earnestness created only by bargains superabundant beyond any ever displayed in this city. Our display of

New Silks, Organdies,

Lawns, Laces,

etc., etc.

was voted by every lady who attended as the most successful, the most novel and original display ever shown in Greensboro.

All those fetching swagger and up-to-date styles that would cost double everywhere else. are here tomorrow and all the balance of the week.

We shall never deviate from the policy originally laid down of handling only the best goods.

We know to a certainty that true success must be based upon the substantial rock of quality, and to handle nothing but the best would never satisfy either ourselves or the public.

But such universal popularity as our our store has attained in so short a time is not based solely upon carrying the best merchandise, we make it a point to sell at small margins of profit, never making a price on an article until we know it is the lowest figure at which that article can be sold. The public will soon learn to know this.

We heartily thank the people of Greensboro for the hearty welcome they have extended us.
